# Anatolie Micaliuc

ihoodstar@gmail.com amicaliuc.com linkedin.com/in/anatolie-micaliuc

Product designer with 8+ years of experience in B2B/B2C. I've worked across the full spectrum: 0→1 startups, acquisitions, and enterprise platforms with dozens of teams and millions of users. I'm comfortable operating without a clear brief, running my own research, and bringing structure to ambiguous problems.

## Work

### Block / Square

Senior Product Designer @ Square for Franchises, May 2022 — March 2026

Led end-to-end product design for Square for Franchises (SFF), Block's enterprise platform serving multi-location sellers and franchise brands.

- Led the Enterprise vision that secured leadership buy-in and unlocked funding for several projects, unblocking workstreams across 4 teams. Partnered on Enterprise Menus, designing key flows including price overrides, scheduled publishing, permissions, bulk actions, and menu publishing visibility
- Shipped Discount, Sales Summary, Royalty, Loyalty & Gift Card reporting tools for franchisors, solving complex reconciliation workflows with positive seller feedback at launch
- Designed SFF's mobile app and online ordering experience for enterprise sellers
- Drove SFF's UI migration to Square's Design System, positioning the product for future growth and alignment with the Square dashboard through phased execution across multiple surfaces
- Created scalability and upmarket complexity frameworks guiding design decisions across SFF, covering bulk actions, location groups, navigation, permissions, and more
- Led the rebranding of GoParrot into SFF, ensuring seamless integration into the Square ecosystem and consistent product communication

### GoParrot

Lead Designer, 2019 — May 2022

- Designed user experiences for a B2C/B2B SaaS product, enabling restaurants to launch their own online ordering platforms, leading to a 10x increase in sales over two years.
- Led the design process from concept to implementation, collaborating with a team of 27 (engineers, QAs, PMs) and building strong relationships with stakeholders.
- Created presentations for stakeholders, investors, sales, and marketing teams.
- Analyzed user insights and feedback, conducted UX competitor research, and tested early-stage features, leading to a deeper understanding of customer needs and more optimized releases.
- Designed interfaces for the Franchise Suite, a product that played a key role in Square's acquisition of GoParrot in 2022.

### Grafica.kz
Lead Designer, 2017—2019

- As a versatile designer, handled various design tasks: UI/UX, visual design, branding, iconography, printing, and others.
- Among studio clients: Verny Capital, MP.kz, KPMG Kazakhstan, National Lottery, Kolesa and others.

### Freelance & Contract
Lead Designer, 2021—...

- Designed an internal investor portal for a Cyprus-based subsidiary of Alfa Bank. Private equity dashboard, complex data-heavy interfaces.
- Designed Conspectus v2 — a knowledge management and productivity tool. Extended the design system and created marketing materials.
- One of the founding designers at Parma CRM and several micro-productswithin the same ecosystem.
- Product design and marketing materials for B2B and B2C clients including Superlegal, OryxNeuro, Tunnel Tech, FFF, Business Youth, Slurm, Southbridge, Import2, and others.

## Skills

### Product & Strategy
